What can I do in Emacs to do this? (It is Emacs on a server, so I cannot configure it directly.) A: The command you are looking for is xref-save-search-history. There is a list of search history commands here. You can also log into the server (ssh) and store your search history as an Emacs.emacs file: emacs -l /path/to/server/root/emacsfile.emacs Then when you reboot, you can simply log into the server and load that file (emacs -q -l /path/to/server/
