
Código De Validación Para Rinoceros

Codigo de validacion para rhinoceros I'm working on an issue where I need to run code using the script editor in Visual Studio Code. When I create a new .js file I get an error when I try to run it. This is the code I'm using: // Edit formatted data (line: 2) function () { var data = [{"name": "t", "id": "1", "foo": "abc", "bar": "def"}, {"name": "t", "id": "2", "foo": ""}]; var data2 = data.split(","); I'm new to Visual Studio Code and I don't know what I'm doing wrong.
