What You'll Need: 1. Red Planet Theme 1.7 required 2. Red Planet 2.3 required 3. Some Thoughts 4. Good Luck! Red Planet is an enhanced version of Solaris 2007, which is the Red Planet theme. Originally a Solaris theme, Solaris 2007 is a well liked theme that also provides the colors for the Solaris blue, yellow and green shading. If you like Solaris then you'll love this free Red Planet theme. It has 3 vibrant colors that make for a good working theme. The Red Planet theme is an enhanced Solaris theme that was once a paid theme. It uses the Windows Vista color scheme in addition to Solaris colors, so it looks really nice and has 3 different color schemes available, each of which can be applied to the various parts of your Windows that you can specify. In addition to a unique 3d look it includes an option for sky shading, which if you have a very large monitor can come in handy. Want to download the Red Planet theme? If you click on the right icon below you'll be taken to the Download page for the Red Planet theme. You can also visit this page for more information on the Red Planet theme. Enjoy! SoundBug is a cute (cute means small) soundboard designed to save you a lot of time by allowing you to control your sounds from one place. The great thing about SoundBug is that you can have 5 different sound boards, a personal sound board, a sound board for your favorite computers, a sound board for your favorite games, and a sound board for the entire house. These sound boards can be quickly turned on and off by pressing the Sound button located on the main Screen, and you can even have as many sound boards as you like. There are a couple things to consider when using SoundBug... First, be careful when configuring the sound boards, as some people have found that certain sound boards have different functions when set at different levels. So for example, if you have a sound board for games and an entire room sound board, they could work together... or they could clash. Second, SoundBug will display sound bits that are currently being played to you. If you are a fan of your sounds being somewhat of an ongoing background tune, these sound bits will never leave you. If you are in a game that stops at certain sound bits, or if you only want to hear your own sounds, you 09e8f5149f

A bit off topic, but it's free so I will share it. I have on my list of things to do to make WordPress a bit more user friendly, so that my students would be able to continue blogging and creating their own blogs. However, it has been a bit difficult to find some good tutorials. It seems it's more of a mission these days for web developers. So, I thought, I would share what I have done. If you want to share, please leave a comment (not the normal comment only). I have three tutorials (not counting WordPress.org) for WordPress 3.1, WordPress 3.2, and WordPress 3.
