Told in a non-linear fashion, you play as Kiki Rose, a 30 year-old woman who decides to run away to live in a nature preserve. The game environment is every bit as welcoming as an adventure game; you find various animals in the forest, and you can interact with them to your heart's content. While this game is a 100% open-ended adventure, it features a number of puzzles and riddles. There is also a number of hidden items to be found. The riddles are simple and straightforward, but with some twists. It's fun looking them up and figuring out the right answer. From listening to the spirits to resolving a series of seemingly unsolvable clues, your solution will be diverse and imaginative. What makes this game stand out is the soundtrack and voiceovers. While many adventure games have a timeless feeling to them, that is not the case with this game. The soundtrack is a cool mix of English folk and French chanson. The voiceovers are

provided by real people, making this a game that feels real and much more alive than some others in the genre. The dialogue is well written and very humorous. Although there are certain lines that are repetitive, they are still fun to hear. Finding hidden items also constitutes a big part of this game. Most of the items in this game have peculiar names. For example, there is a "Glass of the Moon", "Piano of the Sun", "Moon's Horn" and "Tentacle of the Moon". It's fun trying to guess what they are. There are also a number of hidden (and not so hidden) objects throughout the game. For example, there is a red can with a note stuck to it. The note reads "Mrs. Rose, there's food in the house" and it is a hint that there is food in the house. There are even a couple of "message boxes", which you can interact with to get some additional hints. As the game progresses, you are able to discover more about Kiki and the experiences she has had in her life. The plot is something of a mystery. The game is not highly linear, and

it's up to you to figure things out. You can continue to play this game at your own pace. If you miss an interaction, or you want to learn more about a particular aspect of the plot, you can continue
