Grimm is a fast-paced, action-adventure game that combines high-speed platforming with first-person shooter action. The Grimm narrative, set in a dystopian future, is told exclusively through a series of distinct episodes, each of which culminates with a boss fight on the rooftop. Within the narrative, players are pursued by a mysterious force that calls itself The Order, and their search for answers about this menacing organization leads them down a path which includes encountering and forming a relationship with some of the other Grimm. The objective of each episode is to find your way across a unique and treacherous landscape while you attempt to discover the sinister truth behind the Order's actions. To get around, jump, dodge, leap, slide, and climb. Each object you find on your journey will help you perform precise jumps and landings, while your arsenal of weapons and special abilities can change the entire course of each fight. How to Play: 1) Climb on crates, boxes, plant pots, tables and chairs. 2) Dodge on the walls and ceilings. 3) Press on the walls to keep your speed and to hit the special walls, like the ones created by the wind and the rain. 4) Press to jump. 5) Quickly press to slide. 6) Press to go up. 7) Press to shoot the regular weapons. 8) Press X to activate the special weapons. 9) Press on boxes to equip your special weapons. 10) Press on walls to throw your special weapons. 11) Special abilities can be activated by pressing on the floor with the opposite direction of the wall on which you are standing.
