SliQ Submitter Plus Crack+

SliQ Submitter Plus is a professional software application whose purpose is to help you manage submissions to web directories for one or multiple websites. Straightforward layout and brand-new submission campaigns You are welcomed by a clean feature lineup that provides you quick access to several important tweaking parameters, such as Directory Campaign Manager (Campaign, Submitters, Directories), and Scheduler. The tool offers support for a wizard that helps you configure a new submission campaign step-by-step. You can specify the URL of the website that you want to submit, enter the text for your link from a directory, write a short description for the website, and provide the keywords and categories appropriate to your website. Additionally, you can offer details about the email address and contact name used for sending confirmation notices, and email account data (POP3 server and port, email username and password). Using three different submission modes The utility lets you opt for an automatic, fast, or browser submission mode. The automatic submitter is the easiest one, as you only need to enter your website details, and configure which captcha decoder service you want to use. The Fast one allows you to see and alter all the category choices SliQ Submitter Plus is making, while Browser-based submitter gives you manual control over the entire operation. Captcha decoder and proxy configuration SliQ Submitter Plus helps you automate the directory submission process with the aid of two built-in services: Decaptcher or DeathyByCaptcha. You can specify the authentication parameters and test the login details to see if they were entered correctly. You may set up proxy parameters (proxy address, username and password) for altering your IP address, choose the directories the application submits to, specify the number of submit and analyze threads, enable the Fast Submitter option for making the utility work in an automatic mode while still allowing you to make a selection of categories, and delete only confirmed emails. Built-in scheduler and other handy options The tool gives you the possibility to schedule tasks by choosing the campaign, enabling the scheduler and selecting the submission rate, as well as setting a maximum number of submissions. What's more, you are allowed to add your own directories, reanalyze directories in order to filter out unavailable items, find out which directories are listing your website, export submission reports to XLS file format, assign a category to a directory, change the priorities for the directory categories, as well as

System Requirements For SliQ Submitter Plus:

Advance Warning: Marantz Pro-Logic CX is a requirement for the sound to function properly, and won't work if you don't have one. Don't get one if you don't have one. Trust me, you don't want to deal with the hassle of swapping out your speakers at a friend's place or at a hotel. You need a Windows 7 compatible motherboard (have one laying around?) and a 7th Generation Core i5 Processor with HyperThreading. If you're using an older Core 2 Quad, you'll need to
