My original data card would not work in the cradle so I went to the local autoport to buy another.I installed the crack and used the installer.Q: Microsoft Excel Template having data pull in each cell I am a newbie working with Microsoft Excel and thus would like to seek help on an issue. I am creating an excel file template that can be used by others in office. The template has an embedded picture in each cell. When I pass a certain parameters, the template will pull data from the database and display it on each cell. This works fine for me. However, the template is too big and there are too many parameters, thus I would
