So I was pleased to learn that the author is a former doctor and now, a personal trainer. The author, Gina La Fontaine, is honest about what it takes to lose weight, and she's a reminder that you can succeed. Lifelong At-Home Weight Loss I have always been a

dieter, so I understand the challenge of losing weight and maintaining it. I've lost weight before, and I've gained it back. The point is, it's never easy. Now I know the factors that hinder, and what I can do to succeed with a healthy lifestyle. In fact, I believe that anyone can lose weight by eating fewer calories and spending more time at the gym. While I've lost weight in the past, I was never able to achieve my ideal weight. Then I started using the methods I'll describe in this book, and I started losing weight — and I kept it off. More importantly, I lost weight permanently. I've maintained that weight since I wrote the book, and I plan to keep it off for life. Your Personal Triggers In this book, you'll learn how to identify personal triggers that cause you to overeat. To succeed in weight loss, you have to eliminate these triggers because they make you want more food. They don't make you eat as much as you really want; 595f342e71
