Search Hey St. Louis! Here's a quick update on what's up at us here at Design Within Reach... Though we've been trying to catch up on some neglected essential upgrades to our website (like a new homepage!) we're also focusing on improving the speed and usability of the site for our customers and clients. We're changing the way we categorize the items in our virtual store (from what's cool to what's hot!) to make them more relevant to our customers and to help buyers make easier decisions. But in the mean time, we wanted to show you how we're getting those essential upgrades done. Here are a few of the things that are behind us: 1. Website homepage update We're starting the process of rolling out a new look for our site.
