Dark Lord stands at the head of a vast network of evil. He seeks to remake the world in his warped image, and as the Darkness grows, you must fight to save your empire - and your friends. Edit: try the modded version of Curse of the Temple. A lost city of magic and technology lies buried beneath the ominous Forest of the Darkly Strange, left behind by the dark dwarves of Old Silden. On the surface it is a peaceful spot, perfect for family outings or quaint forest breaks, but all is not what it seems. The Temple contains a trap within a trap, one designed to save the ancient city from the looming threat of the dragon-like Silden, but it will destroy anyone that dares to set foot inside. The battle between good and evil is once again set for an all-out war, and if you are to survive, you will need to be fast, smart, and merciless. your browser does 595f342e71
