Run Setup and Install tar.gz.What's New: v0.6.0c. clave para software quickmobel 9.6 codigo de activacion para quickmobel 9.6 Q: Axios Promise never returns I have a React component that sends out a POST request to a remote API, and I want to wait until the response is received before actually updating the state of my component. I'm trying to use a Promise.all to wait, but it keeps returning before I receive the response from the API:

```
import React from "react"; import axios from "axios"; class App extends React.Component { constructor(props) { super(props); this.state = {}; } componentWillMount() { this.setState({ isLoading: true }); } handleSubmit = e => { e.preventDefault(); this.setState({ isLoading: false }); }; sendRequest = () => { axios .post("", { term: "foo" }) .then(response => { this.setState({ results: response.data }); }) .catch(e => { console.log(e); }); }; render() { const { term } = this.props; const { isLoading } = this.state; return ( Por favor, c6a93da74d
