Direct Download.A survey of the prevalence of childhood obesity in Sydney, Australia. The prevalence of obesity and overweight in children and adolescents in Australia is rapidly increasing. This study is the first nationally representative survey of childhood obesity in the country. Using a cross-sectional design, a sample of students in grades 5-12 from all state and territory secondary schools in Sydney were investigated. Height and weight were measured and the prevalence of obesity and overweight were calculated. Of the 2422 students, 1748 (75.0%) participated. Overall, 481 (26.8%) students were classified as obese, and 776 (44.8%) were overweight. In Sydney, within metropolitan, postcode and federal government school boundaries, the prevalence of obesity was 14.3% (95% CI 12.2-16.3), 27.6% (95% CI 23.1-32.1) and 16.7% (95% CI 14.5-19.1), respectively. In comparison, overweight rates were 72.1% (95% CI 69.8-74.5), 59.9% (95% CI 55.3-64.4) and 58.2% (95% CI 55.6-60.6), respectively. The difference in overweight rates between students in metropolitan (P = 0.004) and postcode (P = 0.004) was significant. It is with great sadness that we report the passing of actor and long-time Chicagoan Ed Asner. He was 86. According to his publicist, Asner died peacefully Sunday at an assisted living facility in c6a93da74d
