Download

Vero Visi v20.0 15. 07.05. Recently, the social network Vero has the ability to change the names and surnames of users, as well as insert a photo into an avatar. And it was at this stage that many users encountered a problem. They can't insert

their photo. The fact is that there is no photo editor in the Vero social network, despite the fact that this social network has many other functions, both non-standard and non-standard. Vero social network developers are slow to fix this bug.
